Zoomlion (000157 CH)

Dual-Engine Drive of Traditional and Emerging Businesses, Enhanced Anti-Cycle Capability

China | Mechanical Equipment | Company Report

Company profile:

Zoomlion is a leading enterprise in the comprehensive engineering machinery industry, both domestically and globally, and is a frontrunner in the crane sector. Its main products cover 18 categories, 105 product series, and 636 model types. The company's traditional products primarily include cranes and concrete machinery, while emerging businesses mainly include excavators, high machines, agricultural machinery, mining machinery, and more. The company holds an industry-leading position in cranes, concrete machinery, and high machines, ranking third among global crane manufacturers and first among tower crane manufacturers.

Investment Summary

Stable Profitability

The Company released its 2024 annual report on March 24, 2025. The total revenue for the year was 45.478 billion (RMB, the same below), down 3.39% yoy. The net profit attributable to the parent company was RMB 3.52 billion, up 0.41% yoy, while the net profit after excluding non-recurring items was RMB 2.554 billion, down 2.7% yoy. If the company's share-based payment expense of RMB 866 million in 2024 (compared to RMB 279 million last year) is excluded, the net profit increased by 15.89%. Despite the decline in revenue, profitability remained stable, primarily due to the increase in gross profit margin (up 0.62 ppts) and cost control (sales expense ratio down 0.71 ppts). The gross profit margin rose to 28.17%, mainly driven by the decline in raw material prices and the increase in the proportion of high-margin overseas business.

Strong Growth in Overseas Business Compensates for Domestic Demand Shortfall

In 2024, the company's domestic revenue was RMB 22.098 billion (down 24.2% yoy), while its foreign revenue was RMB 23.38 billion (up 30.58% yoy). The decline in domestic revenue was mainly due to sluggish real estate investment (down 5.2% yoy in 2024), which dampened demand for construction machinery. At the same time, the overseas gross profit margin was 32.5%, significantly higher than the domestic gross profit margin of 24.06%, which strongly supported the stability of profits. The company continues to improve its "end-to-end, digital, localized" overseas business system, with its overseas layout continuing to expand. Additionally, by localizing production, the company reduces logistics and tariff costs. With 400 global sales outlets, the company provides "end-to-end" services, and its direct sales overseas account for more than 70%, with profit margins higher than those of the agency model. The company has established 11 overseas production bases in eight countries, including Italy, Germany, India, Mexico, Belarus, Brazil, Turkey, and the United States, forming a production system covering eight categories and 32 series. The company's overseas business continues to grow strongly, with significant results from its localized development strategy in key countries.

Dual-Engine Drive of Traditional and Emerging Businesses, Enhanced Anti-Cycle Capability

In 2024, the Company's main traditional segments, concrete machinery and crane machinery, generated revenues of RMB 8.01 billion and RMB 14.79 billion, respectively, with year-on-year declines of 6.8% and 23.35%, primarily due to the weakness in domestic real estate investment. In contrast, emerging segments such as earthmoving machinery, high-altitude machinery, and agricultural machinery generated revenues of RMB 6.67 billion, RMB 6.83 billion, and RMB 4.65 billion, respectively, with year-on-year growth of 0.34%, 19.74%, and 122.29%. In 2024, the company experienced a significant decline in crane machinery, while high machines and agricultural machinery saw rapid growth, leading to an increase in the proportion of emerging segments such as earthmoving, high machines, and agricultural machinery, which rose to 39.92%. Among these, agricultural machinery: the company ranked first in the dryer market share, second in wheat machinery, and saw new opportunities for growth in corn and rice machines. High-altitude machinery: the company has become a domestic leader, with significant technological advantages (the most complete range of domestic models).

Investment Thesis

Zoomlion's 2024 performance reflects a pattern of "pressure on traditional segments, rise of emerging sectors," with overseas expansion and product mix optimization supporting earnings resilience. We believe the company's emerging businesses and international markets will continue to grow and expect EPS to be 0.56/0.68/0.82 yuan respectively for 2025/2026/2027. We offer a target price of 9 yuan, respectively 16/13.3/10.9x P/E for 2024/2025/2026, and an "BUY" rating. (Closing price as at 22 April)

Risk

Progress of new production line is below expectations

Downstream industries fall short of expectations

Sharply rising raw material prices or sharply falling product prices

Overseas market risk

UPDATE REPORT

PHILLIP RESEARCH STOCK SELECTION SYSTEMS

Total Return	Recommendation	Rating	Remarks
>+20%	Buy	1	>20% upside from the current price
+5% to +20%	Accumulate	2	+5% to +20%upside from the current price
-5% to +5%	Neutral	3	Trade within ± 5% from the current price
-5% to -20%	Reduce	4	-5% to -20% downside from the current price
<-20%	Sell	5	>20%downside from the current price

We do not base our recommendations entirely on the above quantitative return bands. We consider qualitative factors like (but not limited to) a stock's risk reward profile, market sentiment, recent rate of share price appreciation, presence or absence of stock price catalysts, and speculative undertones surrounding the stock, before making our final recommendation

GENERAL DISCLAIMER

This publication is prepared by Phillip Securities (Hong Kong) Ltd ("Phillip Securities"). By receiving or reading this publication, you agree to be bound by the terms and limitations set out below.

This publication shall not be reproduced in whole or in part, distributed or published by you for any purpose. Phillip Securities shall not be liable for any direct or consequential loss arising from any use of material contained in this publication.

The information contained in this publication has been obtained from public sources which Phillip Securities has no reason to believe are unreliable and any analysis, forecasts, projections, expectations and opinions (collectively the "Research") contained in this publication are based on such information and are expressions of belief only. Phillip Securities has not verified this information and no representation or warranty, express or implied, is made that such information or Research is accurate, complete or verified or should be relied upon as such. Any such information or Research contained in this publication is subject to change, and Phillip Securities shall not have any responsibility to maintain the information or Research made available or to supply any corrections, updates or releases in connection therewith. In no event will Phillip Securities be liable for any special, indirect, incidental or consequential damages which may be incurred from the use of the information or Research made available, even if it has been advised of the possibility of such damages.

Any opinions, forecasts, assumptions, estimates, valuations and prices contained in this material are as of the date indicated and are subject to change at any time without prior notice.

This material is intended for general circulation only and does not take into account the specific investment objectives, financial situation or particular needs of any particular person. The products mentioned in this material may not be suitable for all investors and a person receiving or reading this material should seek advice from a financial adviser regarding the suitability of such products, taking into account the specific investment objectives, financial situation or particular needs of that person, before making a commitment to invest in any of such products.

This publication should not be relied upon as authoritative without further being subject to the recipient's own independent verification and exercise of judgment. The fact that this publication has been made available constitutes neither a recommendation to enter into a particular transaction nor a representation that any product described in this material is suitable or appropriate for the recipient. Recipients should be aware that many of the products which may be described in this publication involve significant risks and may not be suitable for all investors, and that any decision to enter into transactions involving such products should not be made unless all such risks are understood and an independent determination has been made that such transactions would be appropriate. Any discussion of the risks contained herein with respect to any product should not be considered to be a disclosure of all risks or a complete discussion of such risks.

Nothing in this report shall be construed to be an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in this research should take into account existing public information, including any registered prospectus in respect of such security.

Disclosure of Interest

Analyst Disclosure: Neither the analyst(s) preparing this report nor his associate has any financial interest in or serves as an officer of the listed corporation covered in this report.

Firm's Disclosure: Phillip Securities does not have any investment banking relationship with the listed corporation covered in this report nor any financial interest of 1% or more of the market capitalization in the listed corporation. In addition, no executive staff of Phillip Securities serves as an officer of the listed corporation.

Availability

The information, tools and material presented herein are not directed, intended for distribution to or use by, any person or entity in any jurisdiction or country where such distribution, publication, availability or use would be contrary to the applicable law or regulation or which would subject Phillip Securities to any registration or licensing or other requirement, or penalty for contravention of such requirements within such jurisdiction.

Information contained herein is based on sources that Phillip Securities (Hong Kong) Limited ("PSHK") believed to be accurate. PSHK does not bear responsibility for any loss occasioned by reliance placed upon the contents hereof. PSHK (or its affiliates or employees) may have positions in relevant investment products.
